Project: AnswerBot – AI-powered FAQ and Customer Support Automation

Persona: Priya — Customer Support Operations Manager

SAYS

- “We answer the same questions repeatedly.”
- “I need FAQs to stay organized and searchable.”
- “Drafting clear answers takes too much time.”

THINKS

- Can AI help draft accurate support answers?
- How can I protect FAQ data from unauthorized changes?
- Can the knowledge base be updated without rebuilding the system?

DOES

- Collects recurring customer questions.
- Creates and edits FAQ entries.
- Searches existing knowledge before responding.
- Uses API tools to test support workflows.

FEELS

- Overloaded by repetitive requests.
- Concerned about inconsistent information.
- Relieved when answers can be generated quickly.
